*Training Session at FTA's Joint SSO and RTA Workshop*

The Federal Transit Administration (FTA) workshops will focus on the minimum requirements needed for agencies to comply with the PTASP rule (49 C.F.R. Part 673) and provide Safety Management Systems implementation strategies. Additionally, the workshops will discuss how to begin creating Agency Safety Plans, including the identification of key stakeholders to coordinate Agency Safety Plan development.

### **Who Should Attend?**

The workshops are open to the staff and contractors of recipients or subrecipients of Urbanized Area Formula Grant Program funds who are responsible for developing or implementing an Agency Safety Plan, and State DOT staff that are responsible for drafting Agency Safety Plans for the small public transportation providers within their States.
